Re: Notice of File Closure for Exploration Activities, Chimney Rock Corporation, Chimney Rock Exploration Project, E/015/063, Emery County, Utah

Dear Mr. Powell:

This letter is to notify you that the file E/015/063, for the Chimney Rock exploration project, located in Sections 11 and 12, T19S, R12E, SLBM, Emery County, Utah, will be retired. Our October 31, 1995 letter stated the file would be closed out as soon as an exploration progress report was received from you. Our letter also requested as-built drawings or maps if the work performed at the site differed from the description in the original notice received September 26, 1991. This exploration project area was later included in your small mining notice S/015/066. We have been notified by the School and Institutional Trust Lands Administration (SITLA) that the leases have been canceled and they are assuming reclamation responsibility for the site.

The Division will close and retire this exploration file; thereby releasing you from further reclamation responsibilities at this site. If you plan to conduct any new mining activities in this area, you will need to submit the appropriate notice of intention prior to commencing any such activities.

If you have any questions or concerns regarding this action, please contact me at (801) 538-5267.

Sincerely,

Anthony A. Gallegos  
Senior Reclamation Specialist
